Dear Review Committee Member,

My name is William Green, and it is my pleasure to offer my heartfelt recommendation for promotion of Allison Hetzel to Full Professor in the Department of Theatre and Dance at the University of Alabama. I had the pleasure of studying under Mrs. Hetzel in a number of classes from 08/2015 to 05/2018 while earning my MFA in Acting at the University and was her assistant in Acting I for a semester my final year.

During my time in the program, Allison displayed an unwavering passion for her work, a total commitment to the progress of her students, and demonstrated a complete availability to all her students and their needs. She was always more than willing to give her time outside of class to listen to my needs in the department, regarding professional work, and concerning personal influences that were having an effect on my departmental duties. Her open-door policy and availability to her students was invaluable. Her passion for her work and our progress as actors was undeniable. Her knowledge and guidance in and out of class has been indispensable.

Of particular note, I personally found Allison's guidance especially helpful in TH 546, Advanced Speech/Voice Performance. Her love for vocal work and her knowledge on the subject was vital to the foundation of my work as an actor while at the University and Allison truly demonstrates a passion for the subject and for the progress of her student's work in this area. The guidance I received from Allison in TH 542 Careers in Professional Theatre and TH 642, Teaching Acting has proven vital to my success in obtaining work as an educator in the field. This is the reason I came to UA to study and earn my MFA, and Allison's guidance in these classes has been priceless in my personal endeavour to find my own place in a university department.

Because of her enthusiasm for her work, her undeniable commitment to her student's and their progress, and her indispensable guidance in the shaping and training of my own skills as a theatre

ALWAYS CREATE.

Because of her enthusiasm for her work, her undeniable commitment to her student's and their progress, and her indispensable guidance in the shaping and training of my own skills as a theatre professional, I can, without hesitation, strongly recommend Allison Hetzel for the promotion to Full Professor in the Department of Theatre and Dance. It is my sincere belief that she is a vital asset to the department and to its current, and future, success.

Sincerely,

A handwritten signature in black ink, appearing to read 'William Green', with a long horizontal flourish extending to the right.
